

# BLACK FRIDAY DEALS

## AMBER WAVES DIVING CO.

**WICHITA CPR TRAINING** [To unsubscribe click here](#)

WE SPENT WENDESDAY EVENING AT PRIMROSE EAST PRE-SCHOOL INSTRUCTING THEIR STAFF ON FIRST AID- CPR-AED. A GREAT GROUP.

IT WAS COLD OUTSIDE BUT THE WATER WAS WARM FOR THIS GROUP OF SCUBA STUDENTS. THANKS TO WENDY AND BLAINE GARRETT ALONG WITH DIVE MASTERS KRISTINE AND RON SEBOR FOR MAKING SURE THERE WERE PLENTY OF LAUGHS DURING THE TRAINING.

SUNDAY'S FIRST AID CLASS GRADUATES PICTURED ABOVE.

**Wichita CPR Training**  
*Provided by Amber Waves Diving Company*

WICHITACpr TRAINING Center can provide you training in Emergency First Responder, American Heart Association, American Safety and Health Institute, and the National Safety Council. Our instructors have real world experience in providing first aid care and will provide you a 'real life' training experience. We also sell a brand of AEDs.

Call 316-775-6688 to schedule your class

**PADI DISCOVER SCUBA**  
**SCUBA REVIEW—OR JUST COME AND PLAY**  
**WICHITA SWIM CLUB POOL**  
**SATURDAY DECEMBER 17, 2022**

**Why PADI Scuba Review?**  
 Are you a certified diver, but haven't been in the water lately? Are you looking to refresh your dive skills and knowledge? Are you a PADI Scuba Diver and want to earn your PADI Open Water Diver certification? If you answered yes to any of these questions then PADI Scuba Review is for you.

**What do I need to start?**  
 Hold a scuba certification  
 Minimum age: 10 years old

**What will I do?**  
 First, you'll review the safety information you learned during your initial training. Then, you head to the pool to practice some of the fundamental scuba skills

**How long will it take?**  
 A couple of hours

**What will I need?**  
 If you don't have your own gear you will need to rent gear.

**I don't want a review, but I want to play?**  
 No problem, Just sign up and come play in the pool for a couple of hours....we want you diving!

- \$75.00 for Refresher (includes gear rental and pool fee)
- No Refresher, don't have pool, but you want to play? Full gear rental \$50.00 plus pool fee.
- Have all your gear but just want to play? \$15.00
- IF YOU BOUGHT A SCUBA SYSTEM FROM US, IT'S FREE

**STARTS AT NOON**

**MAKE EVERY WEEKEND A DIVE WEEKEND**

**BLACK FRIDAY** WE ARE IN THE MOOD TO MAKE DEALS ALL WEEK LONG. JUST COME IN AND ASK

**Google REVIEWS** Christine Fisher

Phenomenal experience from start to finish! Tyler and Brian did a great job helping me choose the right diving equipment. Prices were fantastic when buying through their store. We then began the classroom and confined water dive course with Wendy and Blaine. This husband and wife dynamic duo nailed it. Their many years of diving experience greatly contributed to the PADI information. They were kind, patient, thorough, and fun! I could not have imagined a better training experience! Thank you Amber Waves!!!

**YES WE HAVE GIFT CERTIFICATES**

**CURACAO**

Amber Waves Diving has teamed with Sunscape Resorts and Ocean Encounters to bring you a great trip to CURACAO JAN 21-28, 2023

Deluxe Garden View Dbl - \$2,930 Single - \$3,635  
 Deluxe Ocean View - Dbl - \$2,990 Single \$3,730  
 Sun Club Ocean View - Dbl \$3,225 Single \$4,100  
 Sun Club Premium Deluxe Ocean Front - Dbl \$3,260 Single \$4,165  
 \*Non-diver rates subtract \$600

**PADI EQUIPMENT SPECIALTY COURSE...IS IT WORTH IT?**

Don't miss a dive due to a scuba gear issue. Whether it's a blown O-ring, regulator problem, wetsuit tear or a broken fin strap, you can learn how to manage basic scuba equipment adjustments.

As a PADI Equipment Specialist, you are prepared for the basic scuba equipment maintenance, care and adjustments you'll encounter every day. In addition, you'll learn interesting background information about how your gear works, how it's repair and other information that helps you with your equipment investment.

Additionally, if you don't already have your PADI Advanced Certification, this course counts as one of your dives. More importantly this course counts toward a specialty needed for your Master Scuba Diver Certification.

**PADI Equipment Specialty - How does it work?**  
 To enroll in the PADI Equipment Specialty course in Bali, you must be a PADI Scuba Diver (or qualifying certification from another organization). No dives are required, so you can take the Equipment Specialist course any time of the year.

With the PADI equipment specialty course you will come to our dive center where our instructor will go through the following with you:

- Review the theory, principles and operation of scuba diving equipment
- Learn about routine, recommended care and maintenance procedures, and equipment storage
- How to overcome common problems with equipment and recommended professional maintenance procedures (may include a demonstration of repair procedures).
- Gain simple suggestions for comfortable equipment configurations and an introduction to new gear (may include optional confined water dive to try new or unfamiliar equipment).

**PADI Equipment Specialty - Where will I dive?**  
 The PADI Equipment Specialty course is a non-diving specialty course which means that there are no dives included in the course.

CALL TO SCHEDULE YOUR COURSE- 316-775-6688

**WHY DIVE NITROX?**

1. **Longer Bottom Times:** Recreational nitrox (21 - 40% oxygen) contains a lower percentage of nitrogen than air. The reduced percentage of nitrogen in recreational nitrox allows divers to extend their no-decompression limits (or dive time) by reducing nitrogen absorption — the less nitrogen there is in a diver's breathing gas, the slower his nitrogen absorption will be at a given depth. For example, according to the NOAA (National Oceanographic and Atmospheric Association) no-decompression dive tables, a diver using Nitrox 36 (or NOAA Nitrox II) may stay up to 50 minutes at 90 feet of sea water, while a diver using air may only stay a maximum of 30 minutes at this depth.

2. **Shorter Surface Intervals:** A diver using nitrox absorbs less nitrogen for a given depth and dive time than a diver using air. This means that the nitrox diver has less nitrogen to off-gas during a surface interval, which can shorten the required surface interval drastically. For example, a diver using Nitrox 32 (NOAA Nitrox I) can repeat a 50 minute dive to 60 feet after 41 minutes, while a diver using air must wait a minimum of 8 hours to repeat the same dive (using NOAA's no decompression dive tables).

3. **Longer Repetitive Dive Times:** Nitrox becomes especially useful for divers who dive in more than one species per day. A diver using nitrox will have a longer allowable bottom time on a repetitive dive than a diver using air because the diver using nitrox has absorbed less nitrogen. For example, after a dive to 70 feet for 30 minutes, a diver using Nitrox 32 can stay at 70 feet for a maximum of 24 minutes if he immediately reenters the water. However, a diver performing the same series of dives on air may only stay at 70 feet for 19 minutes on his second dive (according to NOAA's no decompression dive tables).

4. **Reduced Exhaustion:** Many divers claim to feel less exhausted after a dive on nitrox than after a comparable dive on air. By reducing a diver's nitrogen absorption, nitrox may also reduce a diver's post-dive exhaustion.

5. **Shorter Decompression:** Technical divers use nitrox to reduce decompression requirements. If nitrox is used throughout the dive, the diver may require shorter or fewer decompression stops. If nitrox is used as a decompression gas (the diver only breathes nitrox during the decompression stops), the decompression stops will be shorter.

**AQUALUNG**  
**HELIX PRO REGULATOR**  
**\$549.00**

This 2022 Aqualung presents us with the Helix, a mid-priced regulator, which enjoys very good performance, undoubtedly above expectations.

It represents the DNA of the Aqualung regulators. It is without question the best option in terms of value for money currently available.

The Helix Pro version has two added features:

Aqualung's patented ACD system, technology that protects the first stage from accidental entry of water or dirt even when the regulator is not under pressure.

And sealed ambient pressure chamber, suitable for cold and/or polluted waters.

**Scubapro MK11/C370 Regulator**

**SCUBAPRO**  
**LMWTEC**  
 PROFESSIONAL DIVING EQUIPMENT

The Mk11 First Stage Regulator is the perfect choice for the recreational diver who wants the advantage of a diaphragm first stage for use in temperate waters. Diaphragm-based first stages are environmentally sealed so that water cannot enter the inner mechanism. This first stage comes standard with the Thermal Insulating System (TIS), which keeps your first stage from freezing up and malfunctioning in cold water conditions. Additionally, its over-balanced diaphragm first stage design gives you better breathing performance at greater depths.

**PRICED RIGHT AT \$639.00**

**APEKS**  
**AQUALUNG**  
**The Apeks GTX50 Regulator**  
 is what you're looking for in a top of the line regulator, at a reasonable price. The Apeks GTX50 is designed to handle every diving condition you could put it through. It can even be changed from right hand to left hand use, by an authorized technician. You can change out the exhaust tee from a wider tee for minimal bubbles, great for photography, or a more narrow exhaust tee for a smaller more compact regulator.  
**\$729.00**

**AQUALUNG**  
**AQUA LUNG I200C WRIST COMPUTER**  
 The i200C is an intuitive, sporty computer with an easy versatility. The i200C has Bluetooth capabilities. It has 4 operating modes, a user-changeable standard battery, the ability to easily switch between 2 Nitrox mixes, as well as no restriction switching between Free & Dive, it adapts to you. Air, Nitrox, Gauge (with run timer), and Free Dive (tracks calculations to allow unrestricted switching between Dive and Free).  
**\$470.00**

**Suunto Eon Core Wrist Dive Computer**  
**SUUNTO**  
 CONQUER NEW TERRITORY  
  
 the compact Suunto EON Core is a great dive companion. Key details of every dive are easy to read from the clear color display with large, prominent digits and intuitive menu logic. Read important diving details at a glance from a clear, legible screen. Large numbers and texts with high-contrast colors are easy to see even in murky waters or when diving at night time. Use the new prominent display layout to further highlight critical dive data. This fully-featured and customizable dive computer is a reliable partner while exploring shipwrecks or admiring the colorful marine life.

**SHERWOOD SCUBA**  
**WISDOM 3 COMPUTER**  
  
 The new Wisdom 3 is an intuitive easy to use and operate with easy to read large digital display. The computer has diver selectable alarms, deep stop reminders, DECO warnings, and has Air, Nitrox and Gauge Modes. The repetitive dive planning mode uses information from previous dives to see limitations of your next dive. Logging your dives is made easy with the dive log function that stores profiles for later recall and viewing.
