### TRAINING AT BEAVER LAKE ARKANSAS

Beaver Lake is a man-made reservoir in the Ozark Mountains of Northwest Arkansas and is formed by a dam across the White River only a few hours drive from Wichita. Beaver Lake waters are deep, clean, and clear. Beaver Lake is optimal for scuba diving because the water is deep and visibility is great making for interesting sites. JOIN US TO FINISH YOUR CERTIFICATION!

COME JOIN US FOR A WEEKEND OF FUN

#### BEAVER LAKE SCHEDULE

- MAY 12-14 OPEN WATER PART TWO, ADVANCED, AND SPECIALTY SCUBA CLASSES
- MAY 26-28 OPEN WATER PART TWO, ADVANCED, AND SPECIALTY SCUBA CLASSES

#### ENRICHED AIR CLASS

WE CUSTOMIZE THE SCHEDULE JUST FOR YOU

### AMBER WAVES DIVING REPAIR CENTER

Properly functioning gear is crucial  
Your safety depends on it. That's why we are the best technicians in the business to service your gear.

#### What to expect

We are certified technicians that always follow manufacturer guidelines. Conscientious and thorough, we examine every part of your gear. We're always on the lookout for wear and corrosion, immediately swapping out anything worn or damaged. We want your next dive to be your best dive!

### ADVANCED OPEN WATER COURSE

The Advanced Open Water Diver Course (AOW) is the next step in learning advanced skills directly applicable to scuba diving. Frequently, an AOW card is just the ticket to diving at a variety of more sites. For example, we know of several places in the Philippines, Malaysia, Australia, and some wreck sites in Florida who will not let you dive at certain, more advanced sites, unless you have the AOW or above certification. The reason is that the operators don't want to risk putting OW divers into certain advanced level dive conditions such as currents or deep, blue water, environments. They know that PADI AOW certified divers have the skills and experience necessary for such sites.

There are a total of 5 dives necessary to complete the course. The required 2 Core dives are Deep and Underwater Navigation. You can choose the remaining 3 Adventure Dives. This course is for newly certified divers as well as divers with more experience who wish to expand their knowledge and practical skills. Also, if you don't have enough time to complete the full AOW course, the Adventure Diver rating is awarded after completion after any 3 Adventure Dives.

#### Why should you take the Advanced Open Water Course?

Open Water Divers have learned the basics, the "how" of diving. After a few dives, there is a need to expand that dive knowledge and learn practical skills which can increase your enjoyment of diving. Ever surface far away from the boat and have a long surface swim back? With the Navigation dive, you will learn how to prevent that situation, using compass as well as natural navigational aids to assist in your underwater journey. For deep diving, there are special concerns, and as an Open Water Diver, you are certified to dive 18 meters/60 feet. After completing the AOW course, that level is extended to 30 meters/100 feet.

If you really want to advance your skills and be more comfortable in the water, taking this course is the way to do it. We have openings for the Beaver lake trip. Give us a call and schedule your course today!

EXPERIENCE A DIFFERENT KIND OF NIGHT LIFE

WE THOUGHT WE WOULD SHARE SOME PICTURES OF THE CONSTRUCTION SITE SO YOU ALL COULD SEE HOW CONSTRUCTION IS PROGRESSING. STILL HOPING TO GET IN OUR NEW DIGS BY EARLY FALL.

### PADI DEEP DIVER TRAINING

Now that you have several dives, you may want to do deeper dives. The Deep Diver course will get you over the apprehension of the unknown and give you more confidence through knowledge and experience.

The purpose of the PADI Deep Diver Specialty Course is to familiarize divers with the skills, knowledge, planning, organization, procedures, techniques, problems, hazards and enjoyment of the depths of 60 feet to 130 feet. The Deep Diver specialty course is designed to serve as a safe, supervised introduction to deeper diving within the limits of recreational scuba diving.

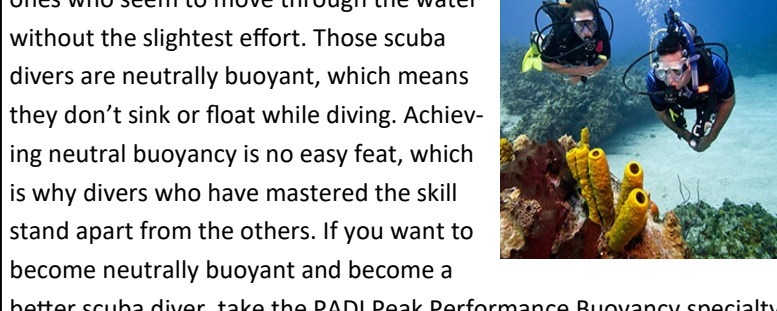

### PADI Peak Performance Buoyancy Specialty Course

You've all seen those divers. You know – the ones who seem to move through the water without the slightest effort. Those scuba divers are neutrally buoyant, which means they don't sink or float while diving. Achieving neutral buoyancy is no easy feat, which is why divers who have mastered the skill stand apart from the others. If you want to become neutrally buoyant and become a better scuba diver, take the PADI Peak Performance Buoyancy specialty course.

### YES WE HAVE BCDs IN STOCK

IT'S TIME TO OWN YOUR OWN BCD

### WISDOM 3 COMPUTER

The new Wisdom 3 is an intuitive easy to use and operate with easy to read large digital display. The computer has diver selectable alarms, deep stop reminders, DECO warnings, and has Air, Nitrox and Gauge Modes.

**RETAIL \$945 ...OUR PRICE \$825**

### HELIX PRO REGULATOR \$549.00

This 2022 Aqualung presents us with the Helix, a mid-priced regulator, which enjoys very good performance, undoubtedly above expectations.

It represents the DNA of the Aqualung regulators. It is without question the best option in terms of value for money currently available.

The Helix Pro version has two added features:

Aqualung's patented ACD system, technology that protects the first stage from accidental entry of water or dirt even when the regulator is not under pressure.

And sealed ambient pressure chamber, suitable for cold and/or polluted waters.

### Aqua Lung Leg3rd Regulator Aqua Lung EVERYTHING YOU'D EVER WANT IN A REGULATOR \$879.00

### Scubapro MK11/C370 Regulator

The Mk11 First Stage Regulator is the perfect choice for the recreational diver who wants the advantage of a diaphragm first stage for use in temperate waters. Diaphragm-based first stages are environmentally sealed so that water cannot enter the inner mechanism. This first stage comes standard with the Thermal Insulating System (TIS), which keeps your first stage from freezing up and malfunctioning in cold water conditions. Additionally, its over-balanced diaphragm first stage design gives you better breathing performance at greater depths.

**PRICED RIGHT AT \$639.00**

### Apeks AQUA LUNG

The Apeks GTX50 Regulator is what you're looking for in a top of the line regulator, at a reasonable price. The Apeks GTX50 is designed to handle every diving condition you could put it through. It can even be changed from right hand to left hand use, by an authorized technician. You can change out the exhaust tee from a wider tee for minimal bubbles, great for photography, or a more narrow exhaust tee for a smaller more compact regulator. Apeks GTX50 features:

- An over balanced diaphragm design first stage that is environmentally sealed
- Four medium pressure ports, with optional fifth
- Easily converts from right hand to left hand, by factory authorized technician
- Pneumatically balanced second stage
- Diver changeable exhaust tee
- Nitrox compatible

\$720.00

### Scubapro MK17 EVO/G260 Regulator

If you dive deep, dive cold, or often find yourself on silty bottoms or in less-than-pristine waters, the MK17 EVO/G260 is the regulator system for you. The new MK17 EVO is Scubapro's premium high performance balanced diaphragm first stage. Engineered specifically for cold water and harsh environments, its internal components are completely sealed off from the elements so neither water nor pollution can get inside the chrome-plated marine grade brass body to foul the mechanism.

This is considered the work-horse for Public Safety and TEC Divers, but why should they get the good stuff when you deserve the best.

\$928

### WISDOM 4 COMPUTER

SHERWOOD'S BEST SELLING AIR INTEGRATED COMPUTER NOW WITH BLUETOOTH INTEGRATION TO DIVELOG+

AVAILABLE AT PARTICIPATING SHERWOOD DIVE CENTERS FOR IN STORE PURCHASE ONLY.
