TRAINING AT BEAVER LAKE ARKANSAS

Beaver Lake is a man-made reservoir in the Ozark Mountains of Northwest Arkansas and is formed by a dam across the White River only a few hours drive from Wichita. Beaver Lake waters are deep, clean, and clear. Beaver Lake is optimal for scuba diving because the water is deep and visibility is great making for interesting sites. JOIN US TO FINISH YOUR CERTIFICATION!

COME JOIN US FOR A WEEKEND OF FUN

BEAVER LAKE SCHEDULE

 - Dive Insurance and Trip Cancellation Insurance (Highly recommended)
 - Optional Add on Dives: 5 added afternoon divers \$250

Price Based on Cash Discount

WE JUST HAD TWO MORE SPOTS OPEN UP....DON'T DELAY BOOK NOW!!!!

CAYMAN BRAC

Where Safety and Serenity Are Required, but Solitude Is Optional

Cayman Brac is one of three Cayman Islands and a Sister Island to Grand Cayman and smaller, nearby neighbor, Little Cayman. The island is roughly 14 square miles—approximately 12 miles long and 1.2 miles wide. It was named for the 140-foot bluff (called a "brac") at the western tip. This bluff is pictured on the \$1 bill of the Cayman Islands. Queen Elizabeth II is on the opposite side.

Personalized Valet Service Delivers the World-Class Experiences You Expect at a World's-Best Dive Destination

Our own Reef Divers provides the personalized valet dive services that many of our guests don't even know they want until they experience it. With 25 years of experience and being the only dive operator on all three Cayman Islands—no one knows or does it better than we do.

Reef Divers takes the work out of your diving, handling the heavy lifting and care of your boat dive gear—from your first dive with us through your last dive (unless you'd prefer to do it yourself). We rinse, dry, and store your BCD and regulator daily, so they're set up and ready for your next day's diving. The only finger you'll have to lift is the one to point out your gear as you relax in the boat, ready to go diving.

Mostly Current-Free Diving Lets You Set Your Own Dive Pace

Cayman Islands diving is mostly current-free, which is optimal for new divers, divers who want to move at their own pace, and underwater photographers who may want to spend their entire dive at one location, waiting for the perfect shot.

All of our dive sites are moored, which marks the beginning and ending points of that dive. Our dive masters will brief the location, establish dive limits, and draw a map of the tour they'll lead. As long as divers remain in buddy teams and stick with the predetermined limits, it's their option to follow the tour or go off on their own.

ADVANCED OPEN WATER COURSE

The Advanced Open Water Diver Course (AOW) is the next step in learning advanced skills directly applicable to scuba diving. Frequently, an AOW card is just the ticket to diving at a variety of more sites. For example, we know of several places in the Philippines, Malaysia, Australia, and some wreck sites in Florida who will not let you dive at certain, more advanced sites, unless you have the AOW or above certification. The reason is that the operators don't want to risk putting OW divers into certain advanced level dive conditions such as currents or deep, blue water, environments. They know that PADI AOW certified divers have the skills and experience necessary for such sites.

There are a total of 5 dives necessary to complete the course. The required 2 Core dives are Deep and Underwater Navigation. You can choose the remaining 3 Adventure Dives. This course is for newly certified divers as well as divers with more experience who wish to expand their knowledge and practical skills. Also, if you don't have enough time to complete the full AOW course, the Adventure Diver rating is awarded after completion after any 3 Adventure Dives.

Why should you take the Advanced Open Water Course?

Open Water Divers have learned the basics, the "how" of diving. After a few dives, there is a need to expand that dive knowledge and learn practical skills which can increase your enjoyment of diving. Ever surface far away from the boat and have a long surface swim back? With the Navigation dive, you will learn how to prevent that situation, using compass as well as natural navigational aids to assist in your underwater journey. For deep diving, there are special concerns, and as an Open Water Diver, you are certified to dive 18 meters/60 feet. After completing the AOW course, that level is extended to 30 meters/100 feet.

If you really want to advance your skills and be more comfortable in the water, taking this course is the way to do it. We have openings for the Beaver lake trip. Give us a call and schedule your course today!
