### FIRST AID TRAINING IS A MUST

There are numerous reasons why people don't take First Aid training programs;

- They are too busy
- They don't know where to go
- They think that they already have enough knowledge, or
- They think that accidents happen to other people not to them or their friends, family and colleagues.

Ask any individual who has taken a first aid training program if it was worth it and their answer will be "Yes!" Having some basic first aid knowledge is essential and here are 5 reasons why. It does more than help save lives.

It's true that having first aid training undoubtedly helps save lives. That's not all though; giving appropriate first aid immediately can help to reduce a person's recovery time and make the difference between the patient having a temporary or long term disability. You'll learn how to remain calm in emergency situations and you'll learn simple acronyms to help you recall the steps you need to take. First aid training will make you confident and comfortable and therefore more effective and in control when you need to be.

**It enables you to increase patient comfort.**

Not all accidents, injuries or illnesses require a trip to the hospital but it doesn't mean they don't cause pain and suffering to the patient. A child crying because of a bruised elbow or with a fever is in pain and is suffering. By knowing how to act – even just by employing simple techniques such as applying an ice pack correctly, or utilizing appropriate bandaging, you'll help to relieve their discomfort. You'll also provide emotional support by remaining calm and collected which will make them feel more secure and reduce their anxiety levels.

**It gives you tools to prevent the situation from becoming worse.**

In some situations if a patient doesn't receive basic first aid care immediately their situation will deteriorate – often rapidly. By being able to provide basic care you can stabilize a patient until emergency medical services arrives. You'll learn how to use basic household items as tools if a first aid kit is not available meaning that you'll be able to cope with many situations.

You'll also be trained in how to collect information and data about what happened and the patients' condition. This information will be passed on to the emergency services, which saves them time – you will be a valuable link in the chain of survival.

**It creates the confidence to care.**

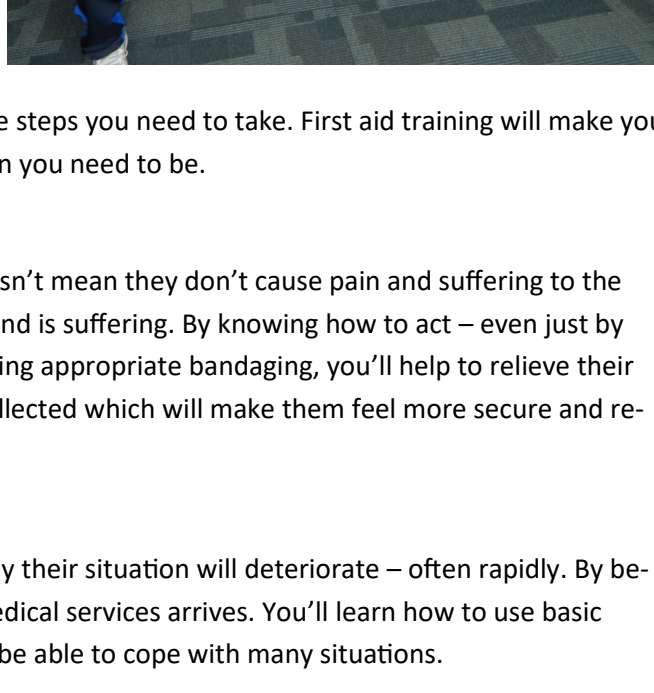

Having a basic first aid knowledge means that you'll be confident in your skills and abilities in relation to first aid administration. By taking first aid training, it helps you to reflect on yourself and how you and others react in certain situations. Having this understanding will boost your confidence in a wide range of non-medical day to day situations.

**It encourages healthy and safe living.**

One of the first things you will learn during your first aid training is that you must look after yourself and ensure your own safety as a priority. It's not being selfish, it's being practical. Keeping yourself safe means you are in a position to help others rather than needing help yourself. You will also learn about the importance of healthy living and how lifestyle habits and choices can increase or decrease your risks of developing problems such as coronary heart disease. Having this knowledge makes you more aware of your own health and alert to potential hazards posed by your surroundings.

The Emergency First Response Secondary Care program provides comprehensive first aid training which will prepare you for a wide range of situations and give you the confidence and knowledge of how to deal with them quickly, correctly and efficiently. Our sister company WICHITAcprTRAINING not only offers EFR Certification but we also offer certifications in American Heart Association, Red Cross, and American Safety and Health Institute. We not only train SCUBA divers, but a host of other users such as health care providers (BLS), day care providers, personal trainers, corporate organizations, and many others. Call to sign up for a course.

**AQUALUNG**

Aqua Lung Leg3rd Regulator

**EVERYTHING YOU'D EVER WANT IN A REGULATOR**

\$879.00

**AQUALUNG**

HELIX PRO REGULATOR

\$549.00

This 2022 Aqualung presents us with the Helix, a mid-priced regulator, which enjoys very good reputation above expectations. It represents the DNA of the Aqualung regulators. It is without Question the best option in terms of value for money currently available.

The Helix Pro version has two added features:

Aqualung's patented ACD system, technology that protects the first stage from accidental entry of water or dirt even when the regulator is not under pressure.

And sealed ambient pressure chamber, suitable for cold and/or polluted waters.

**SCUBAPRO**

SCUBAPRO MK19 EVO/G260 REGULATOR

THE MK19 EVO/G260 REGULATOR IS PERFECT FOR ANY CONDITIONS, ESPECIALLY THOSE WHO DIVE DEEP, IN COLD WATER, OR IN SILTY ENVIRONMENTS. THIS SYSTEM IS IDEAL FOR HARSH CONDITIONS, MAKING IT A TOP CHOICE FOR TECH DIVERS AND CAVE EXPLORERS. THE COMPACT MK19 EVO IS FULLY SEALED, ENSURING TROUBLE-FREE OPERATION IN COLD OR MURKY WATERS. THE G260 IS A HIGHLY IMITATED AIR-BALANCED SECOND STAGE WITH METAL MAKING IT EXCELLENT FOR TECH DIVING SETUPS AND A CONSISTENT TOP PERFORMER.

**Scubapro MK11/C370 Regulator**

The Mk11 First Stage Regulator is the perfect choice for the recreational diver who wants the advantage of a diaphragm first stage for use in temperate waters. Diaphragm-based first stages are environmentally sealed so that water cannot enter the inner mechanism. This first stage comes standard with the Thermal Insulating System (TIS), which keeps your first stage from freezing up and malfunctioning in cold water conditions. Additionally, its over-balanced diaphragm first stage design gives you better breathing performance at greater depths.

**PRICED RIGHT AT \$639.00**

**APEKS**

**AQUALUNG**

The Apeks XTX50 Regulator is what you're looking for in a top of the line regulator, at a reasonable price. The Apeks XTX50 is designed to handle every diving condition you could put it through. It can even be changed from right hand to left hand use, by an authorized technician. You can change out the exhaust tee from a wider tee for minimal bubbles, gear for photography, or a more narrow exhaust tee for a smaller more compact regulator. Apeks XTX50 features:

- An over balanced diaphragm design first stage that is environmentally sealed
  - Four medium pressure ports, with optional fifth
  - Easily converts from right hand to left hand, by factory authorized technician
  - Pneumatically balanced second stage
  - Diver changeable exhaust tee
  - Nitrox compatible
- \$720.00
