WISDOM 3 COMPUTER

The new Wisdom 3 is an intuitive easy to use and operate with easy to read large digital display. The computer has diver selectable alarms, deep stop reminders, DECO warnings, and has Air, Nitrox and Gauge Modes. The repetitive dive planning mode uses information from previous dives to see limitations of your next dive. Logging your dives is made easy with the dive log function that stores profiles for later recall and viewing.

WORK REPEATING; KEEP SWIMMING

I read the following and thought it was worth sharing, especially in these brutal times that cause dismay and much hardship:

NASA- National Aeronautics and Space Administration - Astronaut

During a BRUTAL study at Harvard in the 1950s, Dr. Curt Richter placed rats in a pool of water to test how long they could tread water. On average they'd give up and sink after 15 minutes.

But right before they gave up due to exhaustion, the researchers would pluck them out, dry them off, let them rest for a few minutes - and put them back in for a second round.

In this second try - how long do you think they lasted? Remember - they had just swum until failure only a few short minutes ago...How long do you think? Another 15 minutes? 10 minutes? 5 minutes?

No!

60 hours!

That's not an error. That's right! 60 hours of swimming. The conclusion drawn was that since the rats BELIEVED that they would eventually be rescued, they could push their bodies way past what they previously thought impossible.

I will leave you with this thought:

If hope can cause exhausted rats to swim for that long, what could a belief in yourself and your abilities, do for you? Remember what you're capable of. Remember why you're here. *Keep swimming.*

AQUALUNG

HELIX PRO REGULATOR \$549.00

This 2022 Aqualung presents us with the Helix, a mid-priced regulator, which enjoys very good performance, undoubtedly above expectations.

It represents the DNA of the Aqualung regulators. It is without question the best option in terms of value for money currently available.

The Helix Pro version has two added features:

Aqualung's patented ACD system, technology that protects the first stage from accidental entry of water or dirt even when the regulator is not under pressure.

And sealed ambient pressure chamber, suitable for cold and/or polluted waters.

PROFESSIONAL DIVING EQUIPMENT

The Mk11 First Stage Regulator is the perfect choice for the recreational diver who wants the advantage of a diaphragm first stage for use in temperate waters. Diaphragm-based first stages are environmentally sealed so that water cannot enter the inner mechanism. This first stage comes standard with the Thermal Insulating System (TIS), which keeps your first stage from freezing up and malfunctioning in cold water conditions. Additionally, its over-balanced diaphragm first stage design gives you better breathing performance at greater depths.
