

**Say Yes**

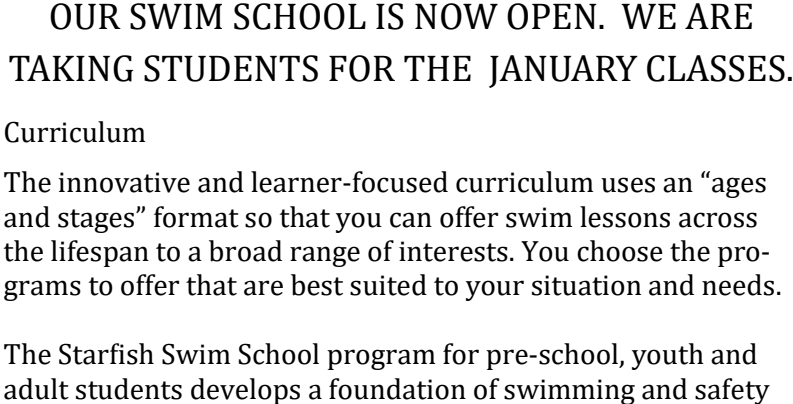

Perhaps the greatest story of courage ever told was Mary's three-word response to the angel Gabriel when he explained to her that she would bear the Son of God. "Let it be," she said, "I am the handmaid of the Lord." With great humility, she opens herself to God's will and submits to His plan, even though she knows none of the details. By uttering her Fiat (Latin for "Let it be") she initiates the Christmas story and the arrival of God into human history. Mary's response also generates hope for all believers – that by saying yes to God we participate in the Christian story and find meaning that sustains us.

I feel so very blessed to have two business partners who "believe," therefore always have helping hearts. God Bless all of you and "Let it be."

WE HAD A PRETTY LARGE GROUP OF FUN DIVERS 'TRY' OUR POOL ON FOR SIZE THIS PAST SATURDAY.

AMBER WAVES DIVING AND AQUATIC CENTER IS NOW RECRUITING FOR SWIM INSTRUCTORS. YOU CAN INQUIRE BY CALLING 316-775-6688 AND OR EMAILING TYLER@AMBERWAVEDIVING.COM

The Starfish Swim School, Family of Brands

**OUR SWIM SCHOOL IS NOW OPEN. WE ARE TAKING STUDENTS FOR THE JANUARY CLASSES.**

Curriculum  
The innovative and learner-focused curriculum uses an "ages and stages" format so that you can offer swim lessons across the lifespan to a broad range of interests. You choose the programs to offer that are best suited to your situation and needs.

The Starfish Swim School program for pre-school, youth and adult students develops a foundation of swimming and safety skills with a focus on self-rescue: trust and submersion body positions and air recovery (includes rollover to back for air recovery) forward movement and direction change rotary movement (transitions from rollover to side position for air recovery) integrated movement age-appropriate safety skills such as asking permission, wearing a lifejacket, using flotation to make an assist, treading water, and survival float.

The Starfish Stroke School for youth and adult students develops effective swim technique and endurance for:

- Freestyle
- Backstroke
- Butterfly
- Breaststroke

Star Fun & Fitness provides eight different activity templates for scouts, homeschoolers, birthday parties, camps, after-school care, and school groups. The activities range from water safety through fitness training - with everything aquatic in between! There is also a water safety presentation for outreach efforts.

Safety Training and Aquatic Rescue (STAR) is a practical and effective community water safety course that can be customized to the needs of the audience. The training is ideal training for parents/caregivers, child care personnel, foster families, and anyone who supervises or may have to help others in, on or near the water. STAR may be provided completely in person by your staff, or you can purchase online courses for distribution to your audience and provide an online or distributed course.

We are working towards the goal of also being an "Aquatic-Fitness Center." We hope to offer water aerobics, water walking programs, arthritis aquatic exercise, along with many more similar programs.

**Scubapro MK11/C370 Regulator**

**SCUBAPRO**

The MK11 First Stage Regulator is the perfect choice for the recreational diver who wants the advantage of a diaphragm first stage for use in temperate waters. Diaphragm-based first stages are environmentally sealed so that water cannot enter the inner mechanism. This first stage comes standard with the Thermal Insulating System (TIS), which keeps your first stage from freezing up and malfunctioning in cold water conditions. Additionally, its over-balanced diaphragm first stage design gives you better breathing performance at greater depths.

**PRICED RIGHT AT \$643.00**

**apeks**

**AQUA LUNG**

The Apeks GTX50 Regulator is what you're looking for in a top of the line regulator, at a reasonable price. The Apeks GTX50 is designed to handle every diving condition you could put it through. It can even be changed from right hand to left hand use, by an authorized technician. You can change out the exhaust tee from a wider tee for minimal bubbles, great for photography, or a more narrow exhaust tee for a smaller more compact regulator. Apeks GTX50 features:

- An over balanced diaphragm design first stage that is environmentally sealed
- Four medium pressure ports, with optional fifth
- Easily converts from right hand to left hand, by factory authorized technician
- Pneumatically balanced second stage
- Diver changeable exhaust tee
- Nitrox compatible
