SATURDAY MORNING DISCOVER SCUBA PROGRAM. THANKS DIVE MASTER STEVE ATKINSON AND JIM PHILLIPS FOR MAKING THIS A NEW AND FUN EXPERIENCE FOR THIS GROUP OF FRIENDS.

LOOKS LIKE I HAVE SOME PANICKED DIVERS ON MY HANDS (LOL). ACTUALLY, WE HELPED THIS FATHER AND SON GET A SCUBA REVIEW COMPLETED FOR AN UPCOMING TRIP THEY ARE GOING ON.

INSTRUCTORS MARK ARMFIELD AND EMMANUEL DHOPP DID A GREAT JOB WITH OUR WEEKEND SCUBA CLASS. THEY ARE NOW READY FOR THE LAKE.

PICTURED ABOVE IS OUR SUNDAY AFTERNOON FIRST AID CLASS GRADUATES.

### SCUBA SCHOOL

SEPT 27-29	LAKE WEEKEND - OPEN WATER CERTIFICATION COURSE (PART 2) ADVANCED OPEN WATER AND ANY SPECIALTY SCUBA COURSES.
OCT 4-6	OPEN WATER PART ONE (CLASSROOM AND POOL SESSIONS)
OCT 5	DISCOVER SCUBA-SCUBA REVIEWS-OR FUN DIVE (NOON-3PM)
OCT 6	OPEN POOL DIVE (2-4 PM)
OCT 9	COSMOSPHERE DISCOVER SCUBA FOR THE KANSAS SCHOOL FOR THE DEAF
OCT 11-13	LAKE WEEKEND - OPEN WATER CERTIFICATION COURSE (PART 2) ADVANCED OPEN WATER AND ANY SPECIALTY SCUBA COURSES. THIS WILL PROBABLY BE OUR LAST LAKE WEEKEND BECAUSE OF COLD WEATHER
OCT 18-20	OPEN WATER PART ONE (CLASSROOM AND POOL SESSIONS)
OCT 19	DISCOVER SCUBA-SCUBA REVIEWS-OR FUN DIVE (NOON-3PM)
OCT 20	OPEN POOL DIVE (2-4 PM)
OCT 19-27	OFF TO BONAIRE
OCT 25-27	OPEN WATER PART ONE (CLASSROOM AND POOL SESSIONS)
OCT 26	DISCOVER SCUBA-SCUBA REVIEWS-OR FUN DIVE (NOON-3PM)
OCT 227	OPEN POOL DIVE (2-4 PM)
NOV 1-3	OPEN WATER PART ONE (CLASSROOM AND POOL SESSIONS)
NOV 2	DISCOVER SCUBA-SCUBA REVIEWS-OR FUN DIVE (NOON-3PM)
NOV 3	OPEN POOL DIVE (2-4 PM)
NOV 8-10	OPEN WATER PART ONE (CLASSROOM AND POOL SESSIONS)
NOV 9	DISCOVER SCUBA-SCUBA REVIEWS-OR FUN DIVE (NOON-3PM)
NOV 10	OPEN POOL DIVE (2-4 PM)
NOV 15-17	OPEN WATER PART ONE (CLASSROOM AND POOL SESSIONS)
NOV 16	DISCOVER SCUBA-SCUBA REVIEWS-OR FUN DIVE (NOON-3PM)
NOV 17	OPEN POOL DIVE (2-4 PM)

MAKE EVERY WEEKEND A DIVE WEEKEND

HAVE YOU FINISHED YOUR SCUBA CERTIFICATION? SCUBA SEASON ENDS!!!!

MORE THAN LIKELY OUR LAST BEAVER LAKE CERTIFICATION WEEKEND WILL BE SEPTEMBER 27-29. WE HAVE ALWAYS BEEN HOPEFUL FOR THE OCTOBER DATES, BUT COLD WEATHER USUALLY SHUTS US OUT. WE STILL HAVE ROOM FOR YOU IN SEPTEMBER. DON'T MISS OUT!

### TRAINING AT BEAVER LAKE ARKANSAS

Beaver Lake is a man-made reservoir in the Ozark Mountains of Northwest Arkansas and is formed by a dam across the White River only a few hours drive from Wichita. Beaver Lake waters are deep, clean, and clear. Beaver Lake is optimal for scuba diving because the water is deep and visibility is great making for interesting sites. JOIN US TO FINISH YOUR CERTIFICATION!

COME JOIN US FOR A WEEKEND OF FUN

### ADVANCED OPEN WATER COURSE

The Advanced Open Water Diver Course (AOW) is the next step in learning advanced skills directly applicable to scuba diving. Frequently, an AOW card is just the ticket to diving at a variety of more sites. For example, we know of several places in the Philippines, Malaysia, Australia, and some wreck sites in Florida who will not let you dive at certain, more advanced sites, unless you have the AOW or above certification. The reason is that the operators don't want to risk putting OW divers into certain advanced level dive conditions such as currents or deep, blue water, environments. They know that PADI AOW certified divers have the skills and experience necessary for such sites.

There are a total of 5 dives necessary to complete the course. The required 2 Core dives are Deep and Underwater Navigation. You can choose the remaining 3 Adventure Dives. This course is for newly certified divers as well as divers with more experience who wish to expand their knowledge and practical skills. Also, if you don't have enough time to complete the full AOW course, the Adventure Diver rating is awarded after completion after any 3 Adventure Dives.

### Why should you take the Advanced Open Water Course?

Open Water Divers have learned the basics, the "how" of diving. After a few dives, there is a need to expand that dive knowledge and learn practical skills which can increase your enjoyment of diving. Ever surface far away from the boat and have a long surface swim back? With the Navigation dive, you will learn how to prevent that situation, using compass as well as natural navigational aids to assist in your underwater journey. For deep diving, there are special concerns, and as an Open Water Diver, you are certified to dive 18 meters/60 feet. After completing the AOW course, that level is extended to 30 meters/100 feet.

If you really want to advance your skills and be more comfortable in the water, taking this course is the way to do it. We have openings for the Beaver lake trip. Give us a call and schedule your course today!

EXPERIENCE A DIFFERENT KIND OF NIGHT LIFE

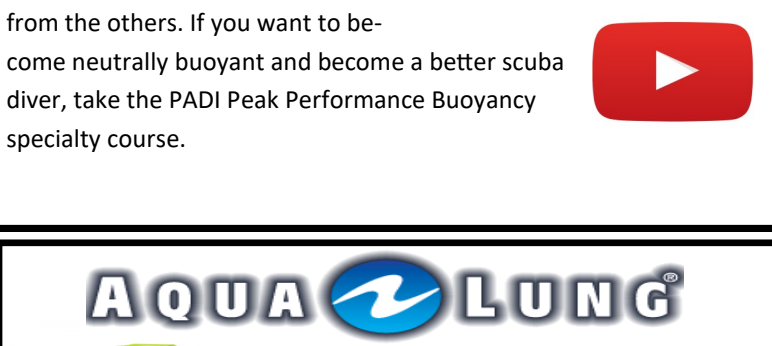

**PADI DEEP DIVER TRAINING**  
Now that you have several dives, you may want to do deeper dives. The Deep Diver course will get you over the apprehension of the unknown and give you more confidence through knowledge and experience.

The purpose of the PADI Deep Diver Specialty Course is to familiarize divers with the skills, knowledge, planning, organization, procedures, techniques, problems, hazards and enjoyment of diving between the depths of 60 feet to 130 feet. The Deep Diver specialty course is intended to serve as a safe, supervised introduction to deeper diving within the limits of recreational scuba diving.

**PADI PEAK PERFORMANCE BUOYANCY SPECIALTY COURSE**  
You've all seen those divers. You know - the ones who seem to move through the water without the slightest effort. Those scuba divers are neutrally buoyant, which means they don't sink or float while diving. Achieving neutral buoyancy is no easy feat, which is why divers who have mastered the skill stand apart from the others. If you want to become neutrally buoyant and become a better scuba diver, take the PADI Peak Performance Buoyancy specialty course.

**HELIX REGULATOR**

**\$535.00**  
**\$499.99**

The Aqualung Helix is a mid-range regulator with a balanced first and second stage design, making it an excellent value for its price. It represents the DNA of Aqualung regulators and can be serviced every two years. The regulator features a balanced diaphragm first stage that provides superior, consistent performance and a pneumatically-balanced second stage that results in smooth, easy breathing. The T-shape of the first stage optimizes the location of the four low-pressure (LP) ports and two high-pressure (HP) ports, while the in-line ergonomic Venturi knob allows for precise adjustments even while wearing gloves. The Helix Core is compatible with EAN 40 new, out of the box, and features an easy-to-grip venturi lever that prevents unwanted free-flow at the surface while giving a performance boost at depth.

**APEKS**

**AQUA LUNG**

The Apeks XTX50 Regulator is what you're looking for in a top of the line regulator, at a reasonable price. The Apeks XTX50 is designed to handle every diving condition you could put it through. It can even be changed from right hand to left hand use, by an authorized technician. You can change out the exhaust tee from a wider tee for minimal bubbles, great for photography, or a more narrow exhaust tee for a smaller more compact regulator. Apeks XTX50 features:

- An over balanced diaphragm design first stage that is environmentally sealed
- Four medium pressure ports, with optional fifth
- Easily converts from right hand to left hand, by factory authorized technician
- Pneumatically balanced adjustments
- Diver changeable exhaust tee
- Nitrox compatible

**\$720.00**

**Scubapro MK11EVO/C370 Regulator**

**SCUBAPRO**

The Mk11 First Stage Regulator is the perfect choice for the recreational diver who wants the advantage of a diaphragm first stage for use in temperate waters. Diaphragm-based first stages are environmentally sealed so that water cannot enter the inner mechanism. This first stage comes standard with the Thermal Insulating Functioning (TIS), which keeps your first stage from freezing up and malfunctioning in cold water conditions. Additionally, its over-balanced diaphragm first stage design gives you better breathing performance at greater depths.

**PRICED RIGHT AT \$699.00**

**SCUBAPRO**

**SCUBAPRO MK19 EVO/G260 Regulator**

If you dive deep, dive cold, or often find yourself on silty bottoms or in less-than-pristine waters, the MK19 EVO/G260 is the regulator system for you. The new MK19 EVO is Scubapro's premium high performance balanced diaphragm first stage. Engineered specifically for cold water and harsh environments. Its internal components are completely sealed off from the elements so neither water nor pollution can get inside the chrome-plated marine grade brass body to foul the mechanism. This total sealing system also allows for a dry ambient pressure chamber which works to prevent freezing, provides better protection and improves performance, ensuring trouble-free operation no matter how cold or murky the water gets. Now think about it, if this regulator performance flawlessly in cold water it will also be a phenomenal regulator in warm temperate waters. This is just simply a great regulator at a great value.
