THANKS TO INSTRUCTORS BRIAN HARVEY AND TOM PRYOR FOR GETTING THIS GROUP OF SCUBA STUDENTS READY FOR THE FINAL PHASE OF THEIR CERTIFICATION TRAINING.

PICTURED ABOVE IS OUR SUNDAY AFTERNOON FIRST AID—CPR-AID CLASS GRADUATES.

### SCUBA SCHOOL

JUNE 13-15	BEAVER LAKE OPEN WATER TRIP. FINISH YOUR OPEN WATER CERTIFICATION, YOUR ADVANCED CERTIFICATION AND MOST SPECIALTIES ON THIS WEEKEND.
JUNE 20-23	OPEN WATER PART ONE (CLASSROOM AND POOL SESSIONS)
JUNE 22	DISCOVER SCUBA-SCUBA REVIEWS-OR FUN DIVE (NOON-3PM)
JUNE 23	OPEN POOL DIVE (2-4 PM)
JUNE 27-29	BEAVER LAKE OPEN WATER TRIP. FINISH YOUR OPEN WATER CERTIFICATION, YOUR ADVANCED CERTIFICATION AND MOST SPECIALTIES ON THIS WEEKEND.
JULY 4-6	OPEN WATER PART ONE (CLASSROOM AND POOL SESSIONS)
JULY 5	DISCOVER SCUBA-SCUBA REVIEWS-OR FUN DIVE (NOON-3PM)
JULY 6	OPEN POOL DIVE (2-4 PM)
JULY 11-13	BEAVER LAKE OPEN WATER TRIP. FINISH YOUR OPEN WATER CERTIFICATION, YOUR ADVANCED CERTIFICATION AND MOST SPECIALTIES ON THIS WEEKEND.
JULY 18-20	OPEN WATER PART ONE (CLASSROOM AND POOL SESSIONS)
JULY 19	DISCOVER SCUBA-SCUBA REVIEWS-OR FUN DIVE (NOON-3PM)
JULY 20	OPEN POOL DIVE (2-4 PM)
JULY 25-27	BEAVER LAKE OPEN WATER TRIP. FINISH YOUR OPEN WATER CERTIFICATION, YOUR ADVANCED CERTIFICATION AND MOST SPECIALTIES ON THIS WEEKEND.

**MAKE EVERY WEEKEND A DIVE WEEKEND**

### TRAINING AT BEAVER LAKE ARKANSAS

Beaver Lake is a man-made reservoir in the Ozark Mountains of Northwest Arkansas and is formed by a dam across the White River only a few hours drive from Wichita. Beaver Lake waters are deep, clean, and clear. Beaver Lake is optimal for scuba diving because the water is deep and visibility is great making for interesting sites. JOIN US TO FINISH YOUR CERTIFICATION!

COME JOIN US FOR A WEEKEND OF FUN  
MAKE PLAN NOW

### BEAVER LAKE SCHEDULE

JUNE 13-15	OPEN WATER PART TWO, ADVANCED, AND SPECIALTY SCUBA CLASSES
JUN 27-29	OPEN WATER PART TWO, ADVANCED, AND SPECIALTY SCUBA CLASSES
JULY 11-13	OPEN WATER PART TWO, ADVANCED, AND SPECIALTY SCUBA CLASSES
JULY 25-27	OPEN WATER PART TWO, ADVANCED, AND SPECIALTY SCUBA CLASSES
AUG 8-10	OPEN WATER PART TWO, ADVANCED, AND SPECIALTY SCUBA CLASSES
AUG 22-24	OPEN WATER PART TWO, ADVANCED, AND SPECIALTY SCUBA CLASSES
SEPT 5-7	OPEN WATER PART TWO, ADVANCED, AND SPECIALTY SCUBA CLASSES
SEPT 19-21	OPEN WATER PART TWO, ADVANCED, AND SPECIALTY SCUBA CLASSES
OCT 3-5	OPEN WATER PART TWO, ADVANCED, AND SPECIALTY SCUBA CLASSES
OCT 17-19	OPEN WATER PART TWO, ADVANCED, AND SPECIALTY SCUBA CLASSES

### TURQUOISE BAY RESORT October 11-18 2025

<b>OCEAN VIEW ROOM</b>	<b>GARDEN OR HILLSIDE ROOMS</b>
DIVER-DBL \$2,693.00	DIVER-DBL \$2,575.00
DIVER-SINGLE \$2,968.00	DIVER-SINGLE \$2,800.00
NON-DIVER DBL \$2,219.00	NON-DIVER DBL \$2,100.00

#### Package Includes:

- Round trip airfare from Wichita
- 7 nights' accommodation at Turquoise Bay Resort
- Round-trip airport/hotel transfers
- 3 full meals daily
- Non alcoholic beverages & local alcoholic beverages
- 3 boat dive trips daily including tanks, weights & weight belt
- Horseback ride
- Botanical garden tour
- Wifi
- All hotel taxes and service charges

#### Package Excludes:

- Nitrox (\$119 + 19% tax for unlimited; if pre-paid)
- Optional Chamber Fee of \$2.00 per person/day
- Personal dive equipment
- Tips to the Dive Crew
- Trip Cancellation or Interruption Insurance

**PRICED AT CASH DISCOUNT**

**\$500 DEPOSIT**

Want an Easy Specialty...to start your way towards becoming an Advanced or Master Suba Diver?

**WE JUST MADE IT EASIER!!!**

### PADI ENRICHED AIR SPECIALISTS

No Diving is Required...just sit back in a comfortable classroom and get your specialty. You will need to come in and pick up your learning materials so that you have your independent study done in time for class. Call today to reserve your spot.

### ADVANCED OPEN WATER COURSE

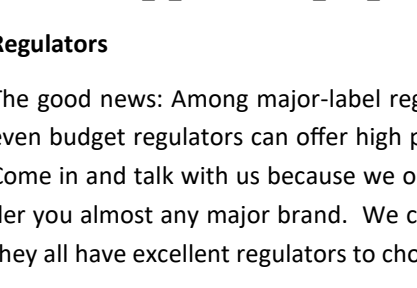

The Advanced Open Water Diver Course (AOW) is the next step in learning advanced skills directly applicable to scuba diving. Frequently, an AOW card is just the ticket to diving at a variety of more sites. For example, we know of several places in the Philippines, Malaysia, Australia, and some wreck sites in Florida who will not let you dive at certain, more advanced sites, unless you have the AOW or above certification. The reason is that the operators don't want to risk putting OW divers into certain advanced level dive conditions such as currents or deep, blue water, environments. They know that PADI AOW certified divers have the skills and experience necessary for such sites.

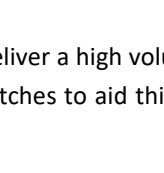

There are a total of 5 dives necessary to complete the course. The required 2 Core dives are Deep and Underwater Navigation. You can choose the remaining 3 Adventure Dives. This course is for newly certified divers as well as divers with more experience who wish to expand their knowledge and practical skills. Also, if you don't have enough time to complete the full AOW course, the Adventure Diver rating is awarded after completion after any 3 Adventure Dives.

#### Why should you take the Advanced Open Water Course?

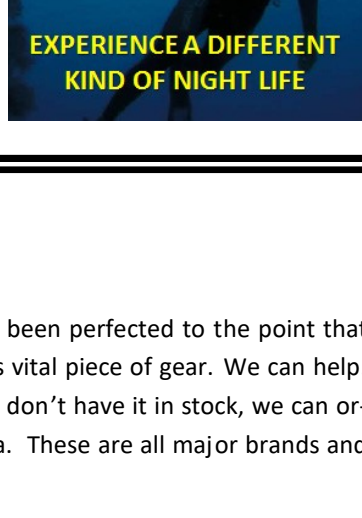

Open Water Divers have learned the basics, the "how" of diving. After a few dives, there is a need to expand that dive knowledge and learn practical skills which can increase your enjoyment of diving. Ever surface far away from the boat and have a long surface swim back? With the Navigation dive, you will learn how to prevent that situation, using compass as well as natural navigational aids to assist in your underwater journey. For deep diving, there are special concerns, and as an Open Water Diver, you are certified to dive 18 meters/60 feet. After completing the AOW course, that level is extended to 30 meters/100 feet.

If you really want to advance your skills and be more comfortable in the water, taking this course is the way to do it. We have openings for the Beaver lake trip. Give us a call and schedule your course today!

### Life-Support Equipment

**Regulators**  
The good news: Among major-label regulators--the kind sold in dive stores--there is no junk. Regulators have been perfected to the point that even budget regulators can offer high performance. However, you must do your homework before buying this vital piece of gear. We can help. Come in and talk with us because we only stock regulators that are rated as above average to excellent. If we don't have it in stock, we can order you almost any major brand. We carry Scubapro, Aqua Lung, Apeks, Atomic, Sherwood, Genesis, and Tusa. These are all major brands and they all have excellent regulators to choose from.

**What It Does** - Converts the high-pressure air in your tank to ambient pressure so that a regulator must also deliver air to other places, such as your BC inflator and alternate second stage.

**What to Look For** - High performance. The best regulators can deliver a high volume of air at depth, under heavy exertion even at low tank pressures. Some regulators also have diver-controlled knobs and switches to aid this process, so it's important to understand the controls and how they work.

Comfort: Look for a comfortable mouthpiece.

Cost - From \$450 to \$1,600.

**Our Advice** - Talk to dive store personnel and experienced divers.

**Computers**  
Nobody enjoys working the dive tables, but they're an invaluable tool for safe diving. Dive computers are an even better tool for the same reason a laptop is better than a slide rule.

**What They Do** - By constantly monitoring depth and bottom time, dive computers automatically recalculate your no-decompression status, giving you longer dive times while still keeping you within a safe envelope of no-decompression time. Computers can also monitor your ascent rate and tank pressure, tell you when it's safe to fly, log your dives and much more. That's why dive computers are almost as common as depth gauges these days.

**What to Look For** - User-friendliness. The most feature-packed dive computer does you no good if you can't easily and quickly access the basic information you need during a dive: depth, time, and decompression status and tank pressure. Some models have both numeric and graphic displays for at-a-glance information. Mounting options are an important feature to consider and let you position computers on your wrist, gauge console, hoses or attach them to BCs. Some computers are conservative in their calculations, automatically building in safety margins; others take you to the edge of decompression and trust you to build in your own safety margins. Only RSD publishes a chart ranking the relative conservatism of dive computers on the market today.

Before you buy, ask to see the owner's manual and check it out. Complete and easy-to-understand instructions are important, especially on feature-packed machines.

Cost - \$400 to \$1,700.

**BCs**  
The BC is the most compact piece of dive equipment you'll own and one of the most important. So choose carefully based on the style of diving you'll be doing most.

**What It Does** - What doesn't it do? It holds your gear in place, lets you carry a tank with minimal effort, floats you at the surface and allows you to achieve neutral buoyancy at any depth.

**What to Look For** - Correct size and fit. Before you try on BCs, slip into the exposure suit you'll wear most often. Look for a BC that fits snugly but doesn't squeeze the face when inflated. The acid test: inflate the BC until the overflow valve vents. The BC should not restrict your breathing. While you've got the BC on, test all valves for accessibility and ease of use, then make sure the adjustments, straps and pockets are easy to reach and use.

Pay particular attention to the inflator hose. Is it easy to reach and extend over your head? Make sure there's a clear distinction between the inflate and deflate buttons and that you can operate them easily with one hand.

Cost - \$450 to \$1,100.

**Our Advice** - This is an important piece of equipment that you can expect to use for many years. Don't skimp; go for quality.

#### Where Should You Buy Gear?

Scuba equipment can be purchased in dive stores, at other retail outlets, by mail order or as used equipment from private parties. There are distinct advantages and disadvantages to each.

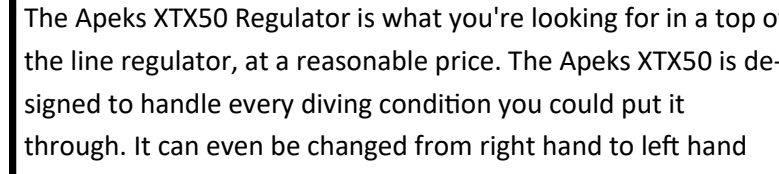

### Suunto Ocean Wrist Computer

Discover the unmatched versatility of the Suunto Ocean Watch

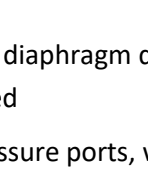

A perfect blend of a True Dive Computer and a True Sports Watch. Engineered for resilience, this watch stands as your ultimate companion under any environmental conditions. Whether you're exploring the depths of the ocean or traversing rugged landscapes and assures reliability and accuracy

**\$899.95 add a transmitter for a few more \$\$**

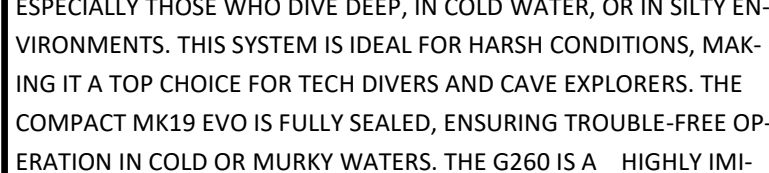

### SHERWOOD SCUBA WISDOM 4 COMPUTER

SHERWOOD'S BEST SELLING AIR INTEGRATED COMPUTER NOW WITH BLUETOOTH INTEGRATION TO DIVELOG+

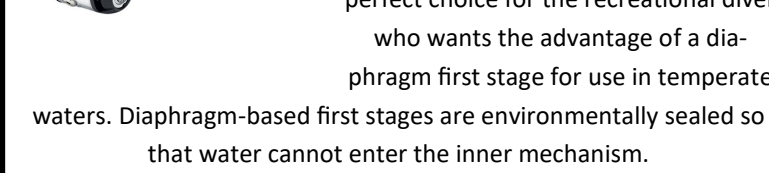

AVAILABLE AT PARTICIPATING SHERWOOD DIVE CENTERS FOR IN STORE PURCHASE ONLY. WWW.SHERWOODSCUBA.COM

BLUE TOOTH TECHNOLOGY AND ONLY SOLD IN BRICK AND MORTAR STORES. YES WE HAVE THEM IN STOCK.

### SCUBAPRO MK19 EVO/G260 REGULATOR

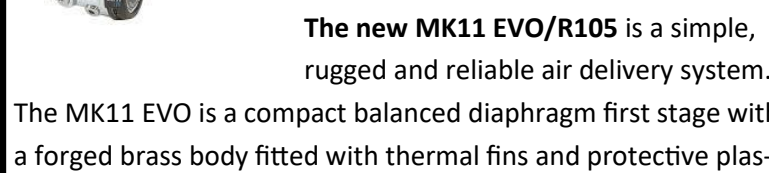

THE MK19 EVO/G260 REGULATOR IS PERFECT FOR ANY CONDITIONS, ESPECIALLY THOSE WHO DIVE DEEP, IN COLD WATER, OR IN SILTY ENVIRONMENTS. THIS SYSTEM IS IDEAL FOR HARSH CONDITIONS, MAKING IT A TOP CHOICE FOR TECH DIVERS AND CAVE EXPLORERS. THE COMPACT MK19 EVO IS FULLY SEALED, ENSURING TROUBLE-FREE OPERATION IN COLD OR MURKY WATERS. THE G260 IS A HIGHLY IMITATED AIR-BALANCED SECOND STAGE WITH METAL COMPONENTS AND A LEFT-RIGHT HOSE ATTACHMENT OPTION, MAKING IT EXCELLENT FOR TECH DIVING SETUPS AND A CONSISTENT TOP PERFORMER.

### SCUBAPRO MK11/C370 REGULATOR

The Mk11 Professional Regulator is the perfect choice for the recreational diver who wants the advantage of a diaphragm first stage for use in temperate waters. Diaphragm-based first stages are environmentally sealed so that water cannot enter the inner mechanism.

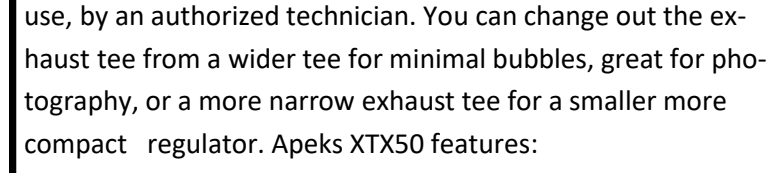

**PRICED RIGHT AT \$719.00**

### SCUBAPRO MK11 EVO/R105 REGULATOR

The new MK11 EVO/R105 is a simple, rugged and reliable air delivery system. The MK11 EVO is a compact balanced diaphragm first stage with a forged brass body fitted with thermal fins and protective plastic bumpers to ward off scratches. The R105 delivers smooth, dependable air flow from its classic downstream valve design. Built to last, the R105 features a durable metal valve housing and an anti-scratch front cover.

\$570.00

### apeks AQUA LUNG

The Apeks TX50 Regulator is what you're looking for in a top of the line regulator, at a reasonable price. The Apeks TX50 is designed to handle every diving condition you could put it through. It can even be changed from right hand to left hand use, by an authorized technician. You can change out the exhaust tee from a wider tee for minimal bubbles, great for photography, or a more narrow for manual tee for a smaller more compact regulator. Apeks TX50 features:

- An over balanced diaphragm design first stage that is environmentally sealed
- Four medium pressure ports, with optional fifth
- Easily converts from right hand to left hand, by factory authorized technician
- Pneumatically balanced second stage
- Diver changeable exhaust tee
- Nitrox compatible

\$649.00

### AQUA LUNG Leg3rd Regulator

\$879.00
