repair and other information that helps you with your equipment investment.

As a PADI Equipment Specialist, you are prepared for the

basic scuba equipment maintenance, care and adjustments

you'll encounter every day. In addition, you'll learn interesting

background information about how your gear works, how it's

Additionally, if you don't already have your PADI Advanced Cer-

tification, this course counts as one of your dives. More importantly this course counts toward a specialty needed for your Master Scuba Diver Certification. PADI Equipment Specialty - How does it work? To enroll in the PADI Equipment Specialty course in Bali, you must be a PADI Scuba Diver (or qualifying certification from another organization). No dives are required, so you can take the

Equipment Specialist course any time of the year.

with you:

Review the theory, principles and operation of scuba diving equipment Learn about routine, recommended care and maintenance

With the PADI equipment specialty course you will come to our

dive center where our Instructor will go through the following

procedures, and equipment storage How to overcome common problems with equipment and recommended professional maintenance procedures (may include a demonstration of repair procedures).

Gain simple suggestions for comfortable equipment config-

urations and an introduction to new gear (may include optional confined water dive to try new or unfamiliar equipment). PADI Equipment Specialty - Where will I dive?

course which means that there are no dives included in the course. CALL TO SCHEDULE YOUR COURSE-316-775-6688

center to help you, preparation can be a pretty good calorie burner. Lifting tanks from the filling station to your car, house and dive site etc. will build your muscles. If it's a long or hard walk to your dive entry point you'll get some cardio too. Over time you will build up endurance and become fitter. The sheer amount of sweat you accumulate on a hot

water and being underwater is like coming home. So, scuba diving is the best of both. It makes you strong, but happy. It makes you fit but relaxed. You're at one with nature, fully immersed and surrounded by it. You forget the troubles that may be worrying you and your office job may as well be on Mars because you are in another world. Each dive is leisure. Each dive is a workout. Each dive makes us thrive and it's

The Apeks XTX50 Regulator is what you're looking for in a top of

the line regulator, at a reasonable price. The Apeks XTX50 is de-

through. It can even be changed from right hand to left hand

use, by an authorized technician. You can change out the ex-

tography, or a more narrow exhaust tee for a smaller more

haust tee from a wider tee for minimal bubbles, great for pho-

AMBER WAVES DIVING REPAIR CENTER

Properly functioning gear is crucial Your safety depends on it. That's why we are the best technicians in the business to service your gear.

What to expect

We are certified technicians that always follow manufacturer guidelines. Conscientious and thorough, we examine every part of your gear. We're always on the lookout for wear and corrosion, immediately swapping out an-

ything worn or damaged. We want your next dive to be your best dive!

**ENRICHED AIR CLASS** 

Sports are more energy burning. They make you fitter and stronger with more endurance. Scuba diving does all of these things too. With time, practice and repetition you'll improve until you're a pro. However, there isn't a competitor element to scuba – so does this mean it is not a sport? Competitive scuba diving? I couldn't imagine anything worse. I don't even know what the scoring would entail if it did exist! Perhaps feet swam per 10 psi? How many clown fish you could count in In all seriousness though, a sport is something you can master. The PADI System is a tiered one, with each level having a way that you can improve and progress with the goal of becoming one of the elite divers. But what about scuba diving without labels? For those of us who just dive for fun and do not work in the diving industry? Is scuba diving a

sport or a leisure activity? It's both, and let me tell you why.

\$1,064.00

The preparation can be heavy work. If you dive privately, without a dive

Cypriot day alone should instantly qualify diving as a sport, because it is
