VISIT OUR WEBSITE, TAP ON THE 'FORMS TAB, AND MAKE SURE YOU'VE PROPERLY FILLED OUT THE MEDICAL FORM AND HAVE A PHYSICIANS APPROVAL ON THE FORM IF IT'S REQUIRED.

PADI EQUIPMENT SPECIALTY COURSE...IS IT WORTH IT?

Don't miss a dive due to a scuba gear issue. Whether it's a blown O-ring, regulator problem, wetsuit tear or a broken fin strap, you can learn how to manage basic scuba equipment adjustments.

As a PADI Equipment Specialist, you are prepared for the basic scuba equipment maintenance, care and adjustments you'll encounter every day. In addition, you'll learn interesting background information about how your gear works, how it's repair and other information that helps you with your equipment investment.

Additionally, if you don't already have your PADI Advanced Certification, this course counts as one of your dives. More importantly this course counts toward a specialty needed for your Master Scuba Diver Certification.

PADI Equipment Specialty - How does it work?

To enroll in the PADI Equipment Specialty course in Bali, you must be a PADI Scuba Diver (or qualifying certification from another organization). No dives are required, so you can take the Equipment Specialist course any time of the year.

With the PADI equipment specialty course you will come to our dive center where our Instructor will go through the following with you:

- Review the theory, principles and operation of scuba diving equipment
- Learn about routine, recommended care and maintenance procedures, and equipment storage
- How to overcome common problems with equipment and recommended professional maintenance procedures (may include a demonstration of repair procedures).
- Gain simple suggestions for comfortable equipment configurations and an introduction to new gear (may include optional confined water dive to try new or unfamiliar equipment).

PADI Equipment Specialty - Where will I dive?

The PADI Equipment Specialty course is a non-diving specialty course which means that there are no dives included in the course.

Scubapro MK11/C370 Regulator

The Mk11 First Stage Regulator is the perfect choice for the recreational diver who wants the advantage of a diaphragm first stage for use in temperate waters. Diaphragm-based first stages are environmentally sealed so that water cannot enter the inner mechanism.

PRICED RIGHT AT \$699.00

Apeks XTX50

The Apeks XTX50 Regulator is what you're looking for in a top of the line regulator, at a reasonable price. The Apeks XTX50 is designed to handle every diving condition you could put it through. It can even be changed from right hand to left hand use, by an authorized technician. You can change out the exhaust tee from a wider tee for minimal bubbles, great for photography, or a more narrow exhaust tee for a smaller more compact regulator. Apeks XTX50 features:

- An over balanced diaphragm design first stage that is environmentally sealed
- Four medium pressure ports, with optional fifth
- Easily converts from right hand to left hand, by factory authorized technician
- Pneumatically balanced second stage
- Diver changeable exhaust tee
- Nitrox compatible

Dive Computer SIRIUS

Mares designed the new Sirius watch-style dive computer with the aim of perfectly combining technology and elegance. The characteristics of this dive computer feature top-of-the-range technology both for recreational and Extended Range divers. The recreational diver will see a simple screen, with the possibility of reading tank data thanks to the optional tank module. The Extended Range diver can insert up to five nitrox and trimix mixes to manage technical dives. The interchangeable strap allows the Mares Sirius to use any suit thickness. Its refined style makes the Sirius the perfect accessory, even out of the water. Available in black or black/silver versions.
