WHERE THE PRAIRIE MEETS THE SEA

[To unsubscribe click here](#)

Another spectacular job by Instructor Brian Harvey getting this group through their PADI classroom and pool sessions.

Dr. SCUBA was activated to help with a Discover Scuba Program and a Dive Master DSD internship.

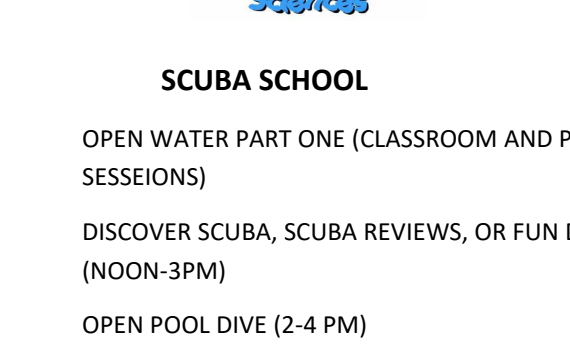

Dive Master Jim Phillips completed a refresher course for this young lady who is heading to Key Largo for some fun in the sun

Instructor John Vanier also completed a private Refresher Course of this young man. He's also ready for some salt water.

Instructor John Vanier completing a Discover SCUBA program .

CAYMAN BRAC BEACH RESORT OCT 17-24

Where Safety and Serenity Are Required, but Solitude Is Optional

Cayman Brac is one of three Cayman Islands and a Sister Island to Grand Cayman and smaller, nearby neighbor, Little Cayman. The island is roughly 14 square miles—approximately 12 miles long and 1.2 miles wide. It was named for the 140-foot bluff (called a “brac”) at the western tip. This bluff is pictured on the \$1 bill of the Cayman Islands. Queen Elizabeth II is on the opposite side.

Personalized Valet Service Delivers the World-Class Experiences You Expect at a World's-Best Dive Destination

Our own Reef Divers provides the personalized valet dive services that many of our guests don't even know they want until they experience it. With 25 years of experience and being the only dive operator on all three Cayman Islands—no one knows or does it better than we do.

Reef Divers takes the work out of your diving, handling the heavy lifting and care of your boat dive gear—from your first dive with us through your last dive (unless you'd prefer to do it yourself). We rinse, dry, and store your BCD and regulator daily, so they're set up and ready for your next day's diving. The only finger you'll have to lift is the one to point out your gear as you relax in the boat, ready to go diving.

Mostly Current-Free Diving Lets You Set Your Own Dive Pace

Cayman Islands diving is mostly current-free, which is optimal for new divers, divers who want to move at their own pace, and underwater photographers who may want to spend their entire dive at one location, waiting for the perfect shot.

All of our dive sites are moored, which marks the beginning and ending points of that dive. Our dive masters will brief the location, establish dive limits, and draw a map of the tour they'll lead. As long as divers remain in buddy teams and stick with the predetermined limits, it's their option to follow the tour or go off on their own.

Suunto Ocean Wrist Computer with Charging Cable

Discover the unmatched versatility of the Suunto Ocean Watch

A perfect blend of a True Dive Computer and a True Sports Watch. Engineered for resilience, this watch stands as your ultimate companion under any environmental conditions. Whether you're exploring the depths of the ocean or traversing rugged landscapes and assures reliability and accuracy

Dive Computer SIRIUS

Mares designed the new Sirius watch-style dive computer with the aim of perfectly combining technology and elegance. The characteristics of this dive computer feature top-of-the-range technology both for recreational and Extended Range divers. The recreational diver will see a simple screen, with the possibility of reading tank data thanks to the optional tank module. The Extended Range diver can insert up to five nitrox and trimix mixes to manage technical dives. The interchangeable strap allows the Extended Range diver to use any suit thickness. Its refined style makes the Sirius the perfect accessory, even out of the water. Available in black or black/silver versions.

SCUBAPRO MK11 EVO/G260 REGULATOR

\$1,049.00

The MK19 EVO/G260 regulator is perfect for ANY CONDITIONS, ESPECIALLY those who dive deep, in cold water, or in silty environments. This system is ideal for harsh conditions, making it a top choice for tech divers and cave explorers. The compact MK19 EVO is fully sealed, ensuring trouble-free operation in cold or murky waters. The G260 is a highly imitated air-balanced second stage with metal components and a left-right hose attachment option, making it excellent for tech diving setups and a consistent top performer.

\$645

The new MK11 EVO/R105 is a simple, rugged and reliable air delivery system. The MK11 EVO is a compact balanced diaphragm first stage with a forged brass body fitted with thermal fins and protective plastic bumpers to ward off scratches. The R105 delivers smooth, dependable air flow from its classic downstream valve design. Built to last, the R105 features a durable metal valve housing and an anti-scratch front cover.

\$585.00

Scubapro MK11/C370 Regulator

The Mk11 First Stage Regulator is the perfect choice for the recreational diver who wants the advantage of a diaphragm first stage for use in temperate waters. Diaphragm-based first stages are environmentally sealed so that water cannot enter the inner mechanism.

PRICED RIGHT AT \$699.00

Once you realize that you don't need a special occasion to buy a cake, the second part of your life begins.
