apeks AQUA LUNG

The Apeks GTX50 Regulator is what you're looking for in a top of the line regulator, at a reasonable price. The Apeks GTX50 is designed to handle every diving condition you could put it through. It can even be changed from right hand to left hand use, by an authorized technician. You can change out the exhaust tee from a wider tee for minimal bubbles, great for photography, or a more narrow exhaust tee for a smaller more compact regulator. Apeks GTX50 features:

- An over balanced diaphragm design first stage that is environmentally sealed
- Four medium pressure ports, with optional fifth
- Easily converts from right hand to left hand, by factory authorized technician
- Pneumatically balanced second stage
- Diver changeable exhaust tee
- Nitrox compatible

SCUBAPRO
SCUBAPRO MK19 EVO/G260 REGULATOR

\$1,049.00

The MK19 EVO/G260 regulator is perfect for ANY CONDITIONS, ESPECIALLY those who dive deep, in cold water, or in silty environments. This system is ideal for harsh conditions, making it a top choice for tech divers and cave explorers. The compact MK19 EVO is fully sealed, ensuring trouble-free operation in cold or murky water. The G260 is a lightly imitated air-balanced second stage with metal components and a left-hand hose attachment option, making it excellent for tech diving setups and a consistent top performer.

The Starfish Swim School® Family of Brands

Amber Waves Swim School-Reserve a Spot

Curriculum

The innovative and learner-focused curriculum uses an "ages and stages" format so that you can offer swim lessons across the lifespan to a broad range of interests. You choose the programs to offer that are best suited to your situation and needs.

The Starfish Swim School program for pre-school, youth and adult students develops a foundation of swimming and safety skills with a focus on self-rescue: trust and submersion body positions and air recovery (includes rollover to back for air recovery) forward movement and direction change rotary movement (transitions from rollover to side position for air recovery) integrated movement age-appropriate safety skills such as asking permission, wearing a lifejacket, using flotation to make an assist, treading water, and survival float.

The Starfish Stroke School for youth and adult students develops effective swim technique and endurance for:

Freestyle
Backstroke
Butterfly
Breaststroke

Star Fun & Fitness provides eight different activity templates for scouts, homeschoolers, birthday parties, camps, after-school care, and school groups. The activities range from water safety through fitness training - with everything aquatic in between! There is also a water safety classroom presentation for outreach efforts.

Safety Training and Aquatic Rescue (STAR) is a practical and effective community water safety course that can be customized to the needs of the audience. The training is ideal training for parents/caregivers, child care personnel, foster families, and anyone who supervises or may have to help others in, on or near the water. STAR may be provided completely in person by your staff, or you can purchase online courses for distribution to your audience and provide an online or blended course.

We are working towards the goal of also being an "Aquatic-Fitness Center." We hope to offer water aerobics, water walking programs, arthritis aquatic exercise, along with many more similar programs.

AQUALUNG

Aqualung presents us with the Helix, Pro a mid-priced regulator, which enjoys very good performance, undoubtedly above expectations.

It represents the DNA of the Aqualung regulators. It is without Question the best option in terms of value for money currently available.

The Helix Pro version has two added features:

Aqualung's patented ACD system, technology that protects the first stage from accidental entry of water or dirt even when the regulator is not under pressure.

And sealed ambient pressure chamber, suitable for cold and/or polluted waters.

Dive Computer SIRIUS

Mares designed the new Sirius watch-style dive computer with the aim of perfectly combining technology and elegance. The characteristics of this dive computer feature top-of-the-range technology both for recreational and Extended Range divers. The recreational diver will see a simple screen, with the possibility of reading tank data thanks to the optional tank module. The Extended Range diver can insert up to five nitrox and trimix mixes to manage technical dives. The interchangeable strap allows the Mares Sirius to use any suit thickness. Its refined style makes the Sirius the perfect accessory, even out of the water. Available in black or black/silver versions.
