May 9-11, 2026 SCUBA training. Pictured to the right is our PADI open water class and pictured left is a Discover SCUBA class. Thanks to Instructors Steven Brinks, Michael Jernigan, and Dan Wegner for making this weekend a GREAT SCUBA weekend.

Instructor Colleen Beckley taught a First Aid CPR class while

MEET KYLE VINCENT  
OUR NEWEST PADI  
CERTIFIED ENRICHED  
AIR DIVER

Thirty-one SCUBA Divers and Non-Divers enjoyed the island of Bonaire for a week. We enjoyed Diving, Shopping, Sightseeing, and making loads of happy memories. We'd love to see you in the fall for our Cayman Bac Trip.

Birthday FUN! Patti Miller (left) enjoyed an underwater celebration and her 100th dive, while my wife enjoyed her birthday on our last night in Bonaire. What GREAT FUN!!!

Want to go on one of our trips, but you're not a SCUBA Diver? NO PROBLEM. Here's a group picture of our non-divers and I can tell you that they had a wonderful time exploring all the sights on Bonaire, especially the shopping excursions.

It's easy to get additional PADI certifications while on one of our trips. From left to right; Marie Moses PADI Deep Diver, Wade Wildon PADI Advanced Open Water Diver, and Linda Henson PADI Advanced Open Water Diver

Dive Master James Phillips instructed a PADI SCUBA Refresher Course this past Saturday

Dive Master Patrick Moore instructed a PADI Discover SCUBA course for this couple this past weekend.

Dive Master James Phillips instructed a PADI SCUBA Refresher Course this past Saturday

Instructor Emmanuel Dhoop instructed a PADI Open Water Course this past weekend and now this group ready for the lake.

### ADVANCED OPEN WATER COURSE

The Advanced Open Water Diver Course (AOW) is the next step in learning advanced skills directly applicable to scuba diving. Frequently, an AOW card is just the ticket to diving at a variety of more sites. For example, we know of several places in the Philippines, Malaysia, Australia, and some wreck sites in Florida who will not let you dive at certain, more advanced sites, unless you have the AOW or above certification. The reason is that the operators don't want to risk putting OW divers into certain advanced level dive conditions such as currents or deep, blue water, environments. They know that PADI AOW certified divers have the skills and experience necessary for such sites.

There are a total of 5 dives necessary to complete the course. The required 2 Core dives are Deep and Underwater Navigation. You can choose the remaining 3 Adventure Dives. This course is for newly certified divers as well as divers with more experience who wish to expand their knowledge and practical skills. Also, if you don't have enough time to complete the full AOW course, the Adventure Diver rating is awarded after completion after any 3 Adventure Dives.

#### Why should you take the Advanced Open Water Course?

Open Water Divers have learned the basics, the "how" of diving. After a few dives, there is a need to expand that long knowledge and learn practical skills which can increase your enjoyment of diving. Ever surface far away from the boat and have a long surface swim back? With the Navigation dive, you will learn how to prevent that situation, using compass as well as natural navigational aids to assist in your underwater journey. For deep diving, there are special concerns, and as an Open Water Diver, you are certified to dive 18 meters/60 feet. After completing the AOW course, that level is extended to 30 meters/100 feet.

PEAK PERFORMANCE BUOYANCY  
GETTING AND STAYING NEUTRAL  
BETTER AIR CONSUMPTION  
BUILD SELF CONFIDENCE

If you really want to advance your skills and be more comfortable in the water, taking this course is the way to do it. We have openings for the Beaver lake trip. Give us a call and schedule your course today!

### Cayman Bac

Aqualung presents us with the Helix, Pro a joy-riding regulator, which enjoys very good performance, undoubtedly above expectations.

It represents the DNA of the Aqualung regulators. It is without Question the best option in terms of value for money currently available.

The Helix Pro version has two added features:

Aqualung's patented ACD system, technology that protects the first stage from accidental entry of water or dirt even when the regulator is not under pressure.

And sealed ambient pressure chamber, suitable for cold and/or polluted waters. \$699.00

Aqua Lung Leg3rd Regulator

EVERYTHING YOU'D EVER WANT IN A REGULATOR \$959

Scubapro MK11/C370 Regulator

The Mk11 First Stage Regulator is the perfect choice for the recreational diver who wants the advantage of a diaphragm first stage for use in temperate waters. Diaphragm-based first stages are environmentally sealed so that water cannot enter the inner mechanism.

PRICED RIGHT AT \$699.00
