AMBER WAVES DIVING REPAIR CENTER

Properly functioning gear is crucial
Your safety depends on it. That's why we are the best technicians in the business to service your gear.

What to expect

We are certified technicians that always follow manufacturer guidelines. Conscientious and thorough, we examine every part of your gear. We're always on the lookout for wear and corrosion, immediately swapping out anything worn or damaged. We want your next dive to be your best dive!

AMBER WAVES DIVING AND AQUATIC CENTER IS NOW RECRUITING FOR SWIM INSTRUCTORS. WE HAVE PERMANENT PART TIME OPENINGS AVAILABLE. YOU CAN INQUIRE BY CALLING 316-775-6688 AND OR EMAILING TYLER@AMBERWAVEDIVING.COM

ADVANCED OPEN WATER COURSE

The Advanced Open Water Diver Course (AOW) is the next step in learning advanced skills directly applicable to scuba diving. Frequently, an AOW card is just the ticket to diving at a variety of more sites. For example, we know of several places in the Philippines, Malaysia, Australia, and some wreck sites in Florida who will not let you dive at certain, more advanced sites, unless you have the AOW or above certification. The reason is that the operators don't want to risk putting OW divers into certain advanced level dive conditions such as currents or deep, blue water, environments. They know that PADI AOW certified divers have the skills and experience necessary for such sites.

There are a total of 5 dives necessary to complete the course. The required 2 Core dives are Deep and Underwater Navigation. You can choose the remaining 3 Adventure Dives. This course is for newly certified divers as well as divers with more experience who wish to expand their knowledge and practical skills. Also, if you don't have enough time to complete the full AOW course, the Adventure Diver rating is awarded after completion after any 3 Adventure Dives.

Why should you take the Advanced Open Water Course?

Open Water Divers who have learned the basics, the "how" of diving, there is a need to expand that long knowledge and learn practical skills which can increase your diving. Ever surface far away from the boat and have a dive surface swim back? With the Navigation dive, you will learn how to prevent that situation, using compass as well as natural navigational aids to assist in your underwater journey. For deep diving, there are special concerns, and as an Open Water Diver, you are certified to dive 18 meters/60 feet. After completing the AOW course, that level is extended to 30 meters/100 feet.

<p>PEAK PERFORMANCE BUOYANCY</p> <p>GETTING AND STAYING NEUTRAL</p> <p>BETTER AIR CONSUMPTION</p> <p>BUILD SELF CONFIDENCE</p>	<p>If you really want to advance your skills and be more comfortable in the water, taking this course is the way to do it. We have openings for the Beaver lake trip. Give us a call and schedule your course today!</p>		<p style="text-align: center; color: yellow; font-weight: bold;">EXPERIENCE A DIFFERENT KIND OF NIGHT LIFE</p>

Scubapro MK11/C370 Regulator

SCUBAPRO

LWATEC PROFESSIONAL DIVING EQUIPMENT

The MK11 First Stage Regulator is the perfect choice for the recreational diver who wants the advantage of a diaphragm first stage for use in temperate waters. Diaphragm-based first stages are environmentally sealed so that water cannot enter the inner mechanism. This first stage comes standard with the Thermal Insulating System (TIS), which keeps your first stage from freezing up and malfunctioning in cold water conditions. Additionally, its over-balanced diaphragm first stage design gives you better performance at greater depths.

PRICED RIGHT AT \$699.00

SCUBAPRO

LWATEC PROFESSIONAL DIVING EQUIPMENT

The new MK11 EVO/R105 is a simple, rugged and reliable air delivery system. The MK11 EVO is a compact balanced diaphragm first stage with a forged brass body fitted with thermal fins and protective plastic bumpers to ward off scratches. The R105 delivers smooth, dependable air flow from its features downstream valve design. Built to last, the R105 features a durable metal valve housing and an anti-scratch front cover.
